PRINCE ALBERT, FEB. 19, 1895.

Now that the threatened election
protest against Mayor Davis and some
of the lately elected town councillors
has been withdrawn, we trust that the
momentary ill feelings which were
engendered by the late elections will
die out, and mutual peace and har-
mony restored. It is but natural that
sometimes harsh words may be un-
thinkingly uttered; which in calmer
moments would be left unsaid; but
still no lasting spite may be intended;
in fact it hardly is the case. We
think that in cases of this kind when
the contest is over each side should
take the result as gracefully as pos-
sible. The victors should not glory
too much over their success, while the
vanquished should take their defeat
with the best grace possible without
recourse to spiteful and threatening
remarks. We are ready at all times
in a contest, to uphold our side to the
best of our ability, carefully avoiding
false representations and personal
reflections on any person; at the same
time willingly allowing the same
privilege to our opponents. And we
think that if truth and upright means
were employed on either side there
need be no ill feelings created. But
if we are misrepresented, if personal
reflections are directed against us, if
endeavors are made to coerce us to
vote contrary to our wish, we are apt
to rebel and retaliate, and forthwith
strife is stirred up. But even when
such is the case, such differences
should not exist for any length of time.
We should not embitter our own life
and the life of others by carrying a
bag of rusty nails in our bosom.

It is announced that the Territorial
Exhibition will open at Regina on
Monday the 29th of July, and will
last until August 14th. Lieut. Gov-
ernor Mackintosh is now in Winnipeg
making arrangements for the fair, in
which he is assisted by Mr. Neff of the
Northwest Executive. It is to be
hoped that the fair will be a success,
as very likely it will be if our agricul-
tural and commercial men will put
their shoulders to the wheel with a
will. Our own district of the Sas-
katchewan could, we are sure, make a
very creditable display at the exhibi-
tion were the proper efforts put forth.
We sincerely trust that the C.P.R.
will see fit to make the travelling ex-
penses to and from this place as low as
possible in order that we may have as
near as possible an equal chance with
those who are nearer the capital of the
Northwest Territories. We are sure
that our agricultural products as well
as any other produce of the farm will
be equally as good as any to be found
in the whole Northwest, and we have
no doubt a country equally as good as
any to be found in the whole North-
west, and we have no doubt a country
equal to any other part of the country
and admirably fitted for colonization.
Under these circumstances it is to be
hoped that our community will not be
hampered in their efforts to exhibit
the product of this district by excessive
passenger and freight rates. Time
is dull and money is very scarce just
now, therefore any means adopted by
the C.P.R. to facilitate an easy access
to the Territorial fair would without
doubt be duly appreciated.

Al though the late disastrous strike
at Brooklyn, U.S. is still for the
near time, yet signs are not wanting
to show that deep seated disquiet still
prevails, and that it is only a question
of a very short time when the smould-
ering flame will break forth more
intense than ever. Mr. Sovereign,
Master Workman of the Knights of
Labor predicts that there will be a
serious upheaval in the country
within twelve months. Every step
and every move indicates that a change
must come. However he predicts
that the change will be accomplished
without the aid of Winchester's d-
galling gun. The wage system, he
says, will be superseded by co-oper-
ative associations, which change will be

people. His threat to Capital, to our
mind, savors somewhat of blasphemy.
Thus far you have gone, and, by the
eternal God you shall go no further.
Straws show which way the wind
blows, and this irreligious expression
is a sign that a peaceful revolution
cannot be accomplished so easily as he
thinks. Apart from this we differ
from him in all as regards any
change being brought about by peace-
ful measures. The truth is everything
goes to show that the opposite will be
the result. It is all very well to say
that there will be a change of purpose
among the masses; that is, in; possible
under the circumstances, for while
Capital has the means to bribe and
coerce, so will there be a great many
vandal enough to accept bribes among
the working classes. That we are on
the brink of a mighty upheaval we
firmly believe; but instead of peace
we look for anarchy and bloodshed.

No less than forty-two centenarians,
thirty women and twelve men, were
found to be in Great Britain during
the past year, ranging from one
hundred to one hundred and fifteen
years of age. There are two circum-
stances worth consideration in this
respect: First, with regard to the
proportion of the sexes in this list, it
will be seen that the females are in
the majority in attaining a long life,
the chances being more than a hundred
percent in their favor, secondly,
many of those women who have lived
to such a great age are inveterate
smokers or snuff takers, showing that
whatever effect nicotine may have upon
men, it certainly agrees with women,
and I ask as if it was conducive to
long life so far as the female portion
of humanity is concerned. On this
fact becoming more widely known we
have no doubt but that before long it
will be as fashionable for women to
smoke as the men do; and that it
will create no surprise to see a lady
permeating the street or entering a
shop with a pipe or cigar in her mouth,
more than a man does with the same
at the present day. And why should
they not have the same privilege?
Women are coming to the front in
politics, medicine, divinity and all
other professions, and why should they
not in the use of tobacco, espe-
cially when in so conducive to longevity.
We trust that something will soon be
discovered to preserve their good
looks as well, and then their happiness
in life will be complete.

THE CHINESE CITY

Interesting Information About the
City of Peking.

It comprises four cities with a popula-
tion of a million and a half. It
is built on a hill and is surrounded by
a wall of 26 miles.

Peking, the capital of the Chinese
empire and of the province of Chihli on
the Tientsin river, has a population
estimated at one million five hundred
thousand, says the New York Recorder.
It stands on an extensive sandy plain
and consists of Kin-Ching, the prohibi-
ted city, containing only the palaces of
the emperor and the dwellings of his
immediate retainers; Hwang Ching, the
imperial city, with a large number of
court officials; Nei-Ching, the Tartar
city, comprising twelve square miles,
and Wai-Ching, the Chinese city, with
fifteen square miles of area. The Tar-
tar city is surrounded by a wall sixty
feet high and fifty feet thick, the Chi-
nese city by one thirty feet high and
twenty-five feet thick. They are built
of stone and brick and filled with earth.
The suburbs include an area of twenty-
five miles.

The prohibited city, two miles in cir-
cumference, is entered by four gates,
each surrounded by a tower. The
buildings are superior to any others in
the empire. The meridian gate leads
to the imperial buildings, and is re-
served for the emperor solely. Five
marble bridges spanning a little stream
lead to a marble paved court and the
gate of extensive peace, at which the
emperor receives the homage of the
courtiers on great state days. Ascend-
ing the stairway, the terraced palace of
heaven is reached, into which none
can enter without special royal per-
mission. The number of people within
the prohibited city is small, most being
Manchus.

The imperial city, surrounding the
prohibited city, has a wall twenty feet
high, pierced by four gates, through
which no one can enter save by special
permission. It contains the tablets of
the deceased emperors and empresses
and the altars of the gods. There are
also the Russian college, military stores,
and Kung-shan, the artificial mountain,
with each of its five summits crowned
by a pavilion.

The Tartar city surrounds the imperi-
al city and contains the principal gov-
ernment offices and the hall of science
erected in 1689. Near by are the Rus-
sian Church of the Assumption and the
temple where his majesty and princess
worship their ancestors on the first day
of every month. The city is in
control of the general of the nine
gates, near whose headquarters is the
high tower in which are the im-
mense drum and bell that proclaim the
hour of midnight. Not far away is the
white pagoda with its obelisk erected
by Kubli Khan in the thirteenth cen-
tury, about which upon one hundred
and eight pillars lamps burn continu-
ously in Buddha's honor.

NOVELTIES IN JEWELRY.

A brass candle bearing its lamp
burden between its humps is a novelty,
and a bronze elephant supporting also a
light-giving howdah is another.

Like a Waterfall After the Grip

Remedious Hoarseness in the Head
—Pain in the Stomach.

To C. I. Hood & Co., Lowell, Mass.:
Two years ago I had a severe attack of the
grip, which left me in a terrible weak and de-
bilitated condition. Last winter I had another
attack, and was very nearly killed. My health
was wrecked, my appetite was all gone, I
could not sleep, and at all the time, I had
terrible hoarseness in my head, like a
waterfall, and severe cramping pains
in my stomach. I had no relief until I
bought a box of Dr. Williams' Pink Pills for
Pale People. I took them for a few days,
and I was cured. I can now eat and sleep
as well as ever, and my health is all restored.
I can recommend Dr. Williams' Pink Pills
to all who are suffering from the grip, or
any other disease.

Dr. Williams' Pink Pills for Pale People.
Solely for the cure of all diseases of the
blood.

HOW IS THIS?

Something new even in these days of mam-
moth premium offers, it is the latest effort of
Stafford's Magazine, a New York monthly of
home and general reading.

The proposition is to send the Magazine
one year for one dollar, the regular subscrip-
tion price, and in addition to send each sub-
scriber fifty-two complete novels during the
twelve months; one each week.

Think of it. You receive a new and com-
plete novel, by mail, post paid, every week
for fifty-two weeks, and in addition you get
the magazine once a month for twelve
months, all for one dollar. It is an offer
which the publishers can only afford to make
in the confident expectation of getting a hun-
dred thousand new subscribers. Among the
authors of the coming series are Wilkie
Collins, Walter Besant, Mrs. Oliphant, Mary
Keell Hay, Florence Marryat, Anthony
Trollope, A. Conan Doyle, Miss Braddon,
Captain Marryat, Miss Trevelyan and Jules
Verne. If you wish to take advantage of
this unusual opportunity send one dollar for
Stafford's Magazine one year. Your first
copy of the magazine and your first novel of
the fifty-two novels (one each week) which
you are to receive during the year will be
sent you by return mail. Remit by P.O.
order, registered letter or express.

See the Calicos and Prints just received at F. C. Baker's.

If you want to get swindled out of your money don't call at Geo. W. Baker's.

Mr. Wm. Lytle and daughter, of Wiloughby, spent a few days in town during the week purchasing supplies, etc.

For Cottons, Shirtings, Ginghams, Flannellets, etc., go to F. C. Baker.

The Rector of St. Allan's Church has consented to preach a special sermon to the members of the Ancient Order of United Workmen on Sunday evening next.

Ladies, see the Prints and Duck Goods at F. C. Baker's.

The curling bonspiel commenced at Winnipeg Tuesday last. There is a large attendance, and the games are being keenly contested.

For School supplies and Stationery of all kinds at rock bottom prices call at Geo. W. Baker's.

H. A. Axford's team of horses ran away Sunday afternoon last. One of the horses cut his legs somewhat, a broken pole and some minor happenings, but happily no thing serious resulted.

Messrs. W. J. Kernaghan and J. D. Maveety left for Moose Jaw on Monday morning's train. They go to attend a meeting of the Grand Council, R. T. of T. which commences to day. They will also attend the annual meeting of the Territorial Grand Orange Lodge, of which Mr. Kernaghan is the Grand Master.

Catarth, relieved in 10 to 60 minutes.—One short puff of the breath through the Blower, supplied with each bottle of "Dr. Agnew's" Catarth Powder, diffuses this Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarth, Hay Fever, Colds, Head aches, Sore Throat, Tonsillitis and Deafness. 50 cents. At J. G. White & Co.

The local curlers are putting in good work for the past couple of weeks. The Presidents match for a medal given by Mr. Maveety, and the married vs. single match for a trophy given by a former president, Mr. J. L. Johnson, are the last of the regular team matches until the annual bonspiel match for the "Bacon and Greens." That with the "Points" match for the district medal will about conclude a very enjoyable season's curling.

W. Shannon continues his sale at 15 per cent. off until 12th inst. All winter goods at cost.

Alhambra and Jewellery at cost at Geo. W. Baker's.

The members of Court Saskatchewan, I.O.F., spent a very pleasant time together last Friday evening. A new member was added to the strength of the Court, with the prospect of two others for the next meeting, which goes to show that the old members are taking an interest in the prosperity of the Order.

Rev. Canon Flett, Ins. ector Schools for the Saskatchewan, is an applicant for the principalship of the Battleford Industrial School, recently made vacant by the resignation of Rev. Thos. Clark. THE TIMES has pleasure in recommending the candidature of Canon Flett, believing that no fitter person could be secured to fill the responsible position now vacant. Canon Flett is also thoroughly acquainted with the Cree language, which would greatly add to his usefulness as an instructor in the Industrial School.

There was quite an exciting time on River Street Saturday afternoon witnessing the races which took place on that old time track. The boys of the town—like boys in other towns—own dogs, and each boy, of course, owns the fastest dog in town. To settle the matter, and give the boys some sport, a certain gentleman in town offered prizes. The trial took place as stated above. The first trial ended in a dispute and the race had to be run over. The last heat was very close, but "Jim" was declared the winner, with De More a good second, and Milman third. After the race was run, the gentleman who offered the prizes refused to put them up, and we are informed that the race is to be run over again next Saturday.

Waghorn's Guide for February contains full details of the new C. P. R. time card, lately effected, and all changes coming into force on the 10th February and mail changes effected thereby, and alterations of mail stage, new post offices opened and a list of the reeves, clerks and treasurers of municipalities in Manitoba and the Northwest Territories for 1895. A table is also given of the agricultural societies and farmers' institutes in the province which is of much general interest. A neatly engraved plan of the Bijou theatre will be useful to enable seats to be looked by those at a distance the sailings of Atlantic steamships and rates of passage are recorded, county court sittings, Man-oie, Old-flores, Foresters and numerous general tables of more or less interest, with maps of Winnipeg and of the Province.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the Family Herald and Weekly Star, Montreal. The Family Herald is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world on cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the Family Herald and Weekly Star of Montreal is hard, indeed, to understand.

All our farmer friends would find it to their advantage to take and read the Farmer's Advocate and Home Magazine. It is the only semi-monthly agricultural journal published in the Dominion of Canada, and the Manitoba and western edition is without doubt the best agricultural paper for the farmers of Manitoba and the Northwest Territories. The subscription is \$1 per year. Send for a sample copy. Address: Farmers Advocate.

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright pianos is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organ-manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.
